

## **SANTA CLARA CORVETTES CARAVAN POLICY**

### **CARAVAN ORGANIZER WILL PROVIDE:**

**Meeting location to organize the caravan that allows ample parking with the best possible access to the major road or highway, minimizing dangerous entry or left turns.**

**Map with directions from the meeting point to the final destination point or points with estimated travel times and distances.**

**Cell phone number of the caravan leader and caravan end car in case 2-way radios are ineffective.**

**Address and phone number of destination point or points.**

### **CARAVAN MEMBERS WILL PROVIDE:**

**All Corvettes will arrive at the meeting point ON TIME with a full tank of gas, empty bladder and any documentation required for the event.**

**All Corvettes should bring a 2-way radio. We will normally use channel 7.0 unless otherwise instructed at the meeting location.**

**All drivers will obey traffic safety laws. We will stay within the speed limits.**

**Cars should stay as close as possible to the Corvette in front of them as safe to do so. A good rule of thumb is one car length for each 10 mph.**

**Keep visual contact on both the Corvette in front and the one behind you.**

**When making left turns at intersections governed by traffic lights, if there are 2 left turn lanes use them both to help get the caravan through the intersection together.**

**Notify the caravan leader on the 2-way radio of any issues that affect the caravan such as a car break down, cars stuck at traffic signals, cars driving unsafely, etc.**

**Be courteous to those in the caravan and other drivers around the caravan.**

**The object is to have fun and arrive safely.**
